Bhaskar Rao Sunkari – CV

Entrepreneurship & Innovation | Business Operations | AI & Web Technology

+44 7887164573 • sunkaribhaskar4856@gmail.com • linkedin.com/in/bhaskar-rao-sunkari • London, UK

Summary

Second-year Entrepreneurship & Innovation student at the University of Greenwich with a family business background in B2B manufacturing. Co-founded a web development agency from scratch, managing clients, team coordination, and full technical delivery. Led a manufacturing automation project at the family business, handling vendor sourcing, procurement, and stakeholder management. Committee member (Client Acquisition) at the Greenwich Consulting Club. Applies AI and no-code tools to solve real business problems. Seeking an internship to further develop commercial skills.

Experience

Committee Member – Client Acquisition, Greenwich Consulting Club (University Society) | London, UK | 2026 – Present

- Identify and approach prospective client organisations for the society's consulting projects, applying outreach and pitching experience from the web agency.
- Work with the committee to plan society events that build industry links and consulting experience for members.

Co-Founder & Operations Lead, Web Development Agency | Raipur, India | April 2025 – Present

- Co-founded a three-person web agency with a designer and a salesperson, targeting small businesses with no online presence; responsible for overall strategy, client management, and connecting all team functions.
- Taught team members to build websites using AI no-code tools (Lovable, Wix, Shopify) and trained the sales partner on outreach and pitch approach.
- Built a full technical delivery pipeline: Lovable → GitHub → Vercel, including DNS configuration, SSL setup, professional email via Zoho Mail, and WhatsApp ordering integrations.
- Developed all business infrastructure from scratch: client contracts, refund and dispute policies, ten-stage delivery process, pre-delivery checklists, and WhatsApp-based client intake forms.

- Managing client relationships, targeting two paying clients in the first month, scaling to five per month.

Automation Project Lead, Kelvin Industries (Family Business) | Raipur, India | April 2025 – June 2025

- Led the automation transition of a labour-intensive B2B manufacturing unit, focusing on packaging and contributing to automation across multiple production stages.
- Sourced and evaluated machinery vendors, gathered quotations, and coordinated procurement decisions in line with operational requirements and budget constraints.
- Managed external suppliers and internal stakeholders, ensuring milestones were met on schedule and reducing manual dependency in production.

Education

University of Greenwich, London, UK | 2025 – 2028

BA (Hons) Entrepreneurship and Innovation – Expected Graduation: 2028

- Competed in the Edumundo International Business Simulation Game, finishing 5th of 8 teams as the only first-year student; all others were third-years.
- Relevant modules: Business Strategy, Leadership & Management, Finance, Marketing, and Excel-based data management and automation.

Disha College of Higher Secondary Studies (CBSE), Raipur, India | Completed 2024

Class 12: 72% | Class 10: 77% | English Medium
